Invitation to Authors

The "Asian Perspectives" Quarterly invites authors to contribute for the following types of publications: research papers, reports, essays, book review articles, dissertation synopsis, reports on seminars and conferences of international or national repute related with Asian issues.

Criteria for manuscript evaluation

Articles should be well structured as for conventional research reports, written clearly and meet all applicable standards for the ethics of experimentation and research integrity.

Citations and References:

- **Books:** the name(s) of the author(s) or editor(s); the title(s) of the publication; the name and location of the publisher(s); the date of publication.
- **Journals:** the name(s) of the author(s) or editor(s); the title(s) of the article; Journal name; Volume number (Issue or part number), first and last page numbers; the date of publication.

Submitting an article, essay or a book review:

- Research articles or studies should not exceed 5,000 words in length. Essays should not exceed 3,000 words in length. Seminars and conferences reports should not exceed 2,500 words in length.
- Single-book reviews should not exceed 1500 words in length. Rather than simply summarizing the material, we encourage you to include analysis that situates the work that you are reviewing in relation to the relevant literature and debates.

REVIEW:

- Manuscripts are accepted for review with the understanding that they are original and have not been published or submitted for publication elsewhere.
- Decisions on submitted manuscripts rest with the Quarterly Editorial Board. Submitted papers not meeting these requirements will not be returned to the authors.

Publication: Accepted manuscripts will be published according to timeliness, consideration of the subject matter, space availability, and publication schedule.

- Responsibility for the information and views set out in this Quarterly lies entirely with the authors.
